

A future in Energy?

Are you looking for an interesting job in a fast growing energy group?

Distrigas is a European gas merchant company. We sell natural gas to industrial customers, natural gas resellers and electricity producers. We are also active in sale and transport of LNG (liquefied natural gas). We offer our customers a wide range of flexible and tailor-made services to guarantee a reliable supply of natural gas at a competitive price.

Eni is an integrated energy company. Active in 79 countries, with a staff of 80.000 employees, it operates in oil and gas operation, production, transportation, transformation and marketing, in petrochemicals, oilfield services construction and engineering.

In order to further strengthen our IT team, we are looking for a:

Business Analyst SAP (m/f)

Your function

As an IT Business Analyst CDM (= custom developed 'Central operational data' management tool on a SAP ERP ABAP platform) you report to the IT Project Leader Business Applications who is in charge of your domain and you play a key role in servicing the different departments within Distrigas and Eni, necessary for the preservation of the current quality level of services, but also by constantly optimising this quality level.

Your main tasks consist in:

- ❑ Evaluating the constantly evolving business needs for operational data management and the possibilities of SAP in this domain. Therefore you are often in contact with your business partners to support them in their daily management of applications.
- ❑ Defining in a timely manner a correct and complete functional analysis.
- ❑ Being responsible for the analysis, maintenance and development guidance of SAP CDM in order to develop the solution into a European service.
- ❑ Staying informed about the technical evolution of SAP in order to support the business in taking strategic decisions.
- ❑ Providing support to the users in co-operation with the other members of your team.

This job is based in Brussels.

Your profile:

- You have a Master degree, preferable an engineer degree or a degree in economics, or equivalent through relevant experience.
- You have a good knowledge of SAP and development knowledge on the SAP ABAP platform.
- You have a thorough knowledge of the MS Office applications (Word, Excel, Powerpoint).
- You have a good knowledge of Dutch, French and English.
- You are a good communicator as well with internal customers and external partners as with developers.
- You are a team player and you are flexible and stress resistant.
- You have an analytical mindset and you work in an accurate and methodical way.
- You have experience or a strong affinity with operational applications within a complex business.

We offer you:

- the opportunity to join a professional, young and dynamic environment, part of a large international group;
- the chance to experience the functioning of the liberalised and rapidly evolving energy markets;
- short reporting lines, autonomy and initiative in your work
- excellent training and growth opportunities
- a competitive salary and an appealing package of extralegal benefits (company car, group and health care insurance, luncheon vouchers, etc.);

Willing to start working at Distrigas at short notice?
